

Tiles & Bricks Europe

ANNUAL GENERAL ASSEMBLY

MÜNCHEN, GERMANY

21-23 OCTOBER 2009

TBE 2009 AGM sponsored by:

Message from the Secretariat

Dear Members,

As we enjoy the last days of the summer, we are very pleased to send you the much awaited invitation to our **2009 Annual General Meeting (AGM)**, which this year will take place in **Munich from 21 to 23 October**. Our annual gathering will coincide with CERAMITEC, the 11th international trade fair for machinery, equipment, plant, processes and raw materials for ceramics.

There will also be the “Heavy clay” conference day and meetings of our roof tile, facing brick, block and paver product groups. More so, we will be invited to exchange opinions and visions during the CEO panel debate on energy efficiency, one of the main challenges our industry will have to face in the coming years. Our AGM will allow us to catch up on all EU legislative and standardisation work and agree on a combined lobbying strategy to help promote our sustainable products across the EU.

Last but not least, thanks to our sponsors and our German member, the “*Bundesverband der Deutschen Ziegelindustrie e.V.*”, we will enjoy both an informal Bavarian evening of food and music and a formal dinner at the prestigious BMW museum.

All there remains for us to say is that we sincerely look forward to seeing a great number of you in Munich.

Sincerely,

A handwritten signature in black ink, appearing to read 'Heimo Scheuch'.

Dr Heimo Scheuch
President

A handwritten signature in black ink, appearing to read 'Christophe Sykes'.

Christophe Sykes
Secretary general
